Dear Dr. McAllister:

We would like to take this opportunity to express our appreciation for your generous support of the meeting of the American Section of the International Society for Heart Research, to be held in Houston.

We recently received notification that due to NIH funding priority shifts required by O.M.B. directives, our grant application to NIH for speaker support will not be funded.

We recognize that in view of your previous generosity an additional request for support is most presumptuous on our part. However, due to the lack of NIH funding we would like to ask if there is any possibility for additional support for our meeting.

We fully understand the difficult nature of this request, and are most appreciative of any further consideration you may give us, as well as your past generosity.

Sincerely yours,

Julius C. Allen, Ph.D.
